

# Layer Pad

## 3 sizes Layer Solutions

Our sustainable food grade virgin PP layer pad solutions enable you to secure and protect your products from damage, reducing packaging waste significantly by eliminating wood and carton disposal. These layer pads, available in 3 sizes, are used in the beverage can industry. We have other layer pads available for other packaging types.

### Hygienic

Plastic layer pads are non-porous and resistant to moisture, insects, fungi, acids, fats, solvents and odor. Our layer pads are inspected after every turn to make sure they meet our quality standards.

### Sustainable

Plastic layer pads are a sustainable solution because they can be reused for years, are recycled at the end of their service life and are then remanufactured into new layer pads.

### Built for Automation

The layer pads are made of lightweight material and always come in a consistent size and weight, causing zero disturbances in your automated material handling systems.

## Features and specifications

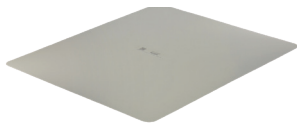

### 1211

Height	0,8 mm
Length	1245 mm
Width	1175 mm
Weight	1 kg
Stacked height	325 units
Units per trailer	19.500
Material	PP
Colour	Light Grey
Foodgrade	Yes
ISPM-15 proof	Yes
Temp. range	-20°C/+55°C

### 1311

Height	0,8 mm
Length	1295 mm
Width	1115 mm
Weight	1,06 kg
Stacked height	600 units
Units per trailer	24.000
Material	PP
Colour	Light Grey
Foodgrade	Yes
ISPM-15 proof	Yes
Temp. range	-20°C/+55°C

### 1411

Height	0,8 mm
Length	1415 mm
Width	1115 mm
Weight	1,12 kg
Stacked height	325 units
Units per trailer	17.550
Material	PP
Colour	Light Grey
Foodgrade	Yes
ISPM-15 proof	Yes
Temp. range	-20°C/+55°C
