

Tosca UDP GEN 2

A retail-ready plastic pallet

Keep products in stock more easily than with standard wooden pallets using this versatile, reusable plastic pallet. Designed to move seamlessly from truck to retail aisle, it can replace traditional shelving—saving time and reducing merchandising costs.

Its space-efficient design and robust construction allow for easy, secure stacking, helping you maximise truck and storage capacity.

Made from high-quality polymer, it meets the specific demands of food and beverage transport and display.

Design & Features

Optional pop up system: secures your trays and crates

Reusable and 100% recyclable at end of life

Grooves to locate nestable and foldable crates

Traceability

Smart pallets enable you to benefit from the value of data and

Scan this QR to **discover more** about this product.

Increase retail efficiency

Uniquely designed to replace traditional shelving, eliminating both the time & cost of merchandising.

Improve in-store availability

Simple and easy restocking ensures maximum product availability for customer.

Meet varied food and beverage demands

Versatile, durable design supports a wide range of sectors and products.

Guarantee hygiene and food safety

Food-safe, non-porous plastic resists humidity, fungi, acids, fats, solvents, and odours to maintain quality.

Meet PPWR and EPR regulations with reusable, recyclable pallets

Reusable and 100% recyclable at end of use.

Specifications

 Characteristics
