DISCLAIMER:

This letter should not imply any guarantee by Tosca on how the label will perform in the supply chain. The label provider and the customer implementing the label bear the responsibility for the actual performance in real world supply chains. Tosca is evaluating the label performance based on the impacts in the return logistics supply chain and the impacts on wash equipment and the finished goods product quality. Supply chain recommendations and concerns reported in this technical evaluation are for consideration only, and are there solely to help Tosca's customers provide more effective solutions.
