

Superior Hybrid

Liquid Bulk Container

The Superior Hybrid is a food grade virgin PP rectangular-shaped foldable 1000-liter container. This is the ideal container for all your low and high viscosity liquid products in industries such as cosmetics and pharmaceuticals. The steel-reinforced side panels hold liquid and keep your product safe. Designed for versatility, the container features five different sealable exit and entry points including one on each corner of the lid and on the bottom discharge dust cover. Once the container is sealed, the product inside is impossible to access. The container features a drop door and three runners for easy handling and a bottom discharge for minimizing residual product. Additionally, its high folding ratio saves space in storage and in transit, resulting in reduced costs and a smaller carbon footprint. Talk to sales about the tools we have available for filling, sealing and emptying.

Hygienic

Plastic containers are non-porous and resistant to moisture, insects, fungi, acids, fats, solvents and odor. Our containers are inspected after every turn to make sure they meet our quality standards.

Sustainable

Plastic containers are a sustainable solution because they can be reused for years, get recycled at the end of their service life and are then remanufactured into new containers.

Traceable

RFID, GPRS and IoT technology can be embedded so ask us for more information.

Features and specifications

Characteristics

Color	Blue/Yellow
Runners	3
Lid	Included
Drop door	Yes
Material	PP
Foodgrade	Yes
ISPM-15 proof	Yes
Temperature range	-4°F/+158°F
Bottom Discharge	Yes

Dimensions

External	1219 x 1016 x 1147 mm
Internal	1134 x 934 x 943 mm
Folded	1219 x 1016 x 354 mm
Weight	105 kg
Volume	1000 litres

Loading capacity

Max static load	8000 kg
Max dynamic load	3200 kg
Max in rack load	1500 kg

Loading quantities

Units per trailer	182 units
Stack	7 units
