

# CR1 1208 Euro

## Size Food Grade Pallet

Our euro-sized food grade virgin HDPE pallet is built to be heavy-duty with metal reinforcements. Featuring three runners and a smooth surface Palgrip®-Anti-slip top deck without rims, this pooled asset can be used in numerous industries or for internal logistics.

### Hygienic

Plastic pallets are non-porous and resistant to moisture, insects, fungi, acids, fats, solvents and odor. Our pallets are inspected after every turn to make sure they meet our quality standards.

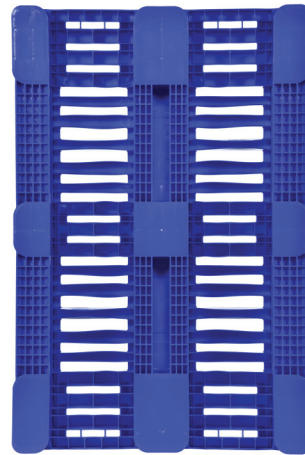

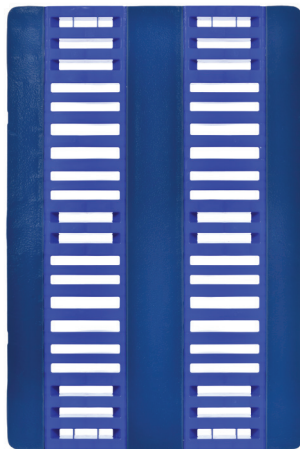

### Sustainable

Ultra-durable pallets can be reused for years and outlast wood alternatives. At the end of their lifecycle, they get recycled and remanufactured into new pallets.

### Built for Automation

Because plastic pallets are molded, the sizes and weight are always consistent, causing zero disturbances in your automated material handling systems.
