

Superior Hybrid 500

Liquid Bulk Container

The Superior 500 is a food grade virgin PP rectangular-shaped foldable 500-liter container. This is the ideal container for all your low and high viscosity liquid products in industries such as the food industry, cosmetics, pharmaceuticals, and all other non-hazardous applications. The steel-reinforced side panels hold liquid and keep your product safe. Designed for versatility and lower volumes, the container features five different sealable exit and entry points including one on each corner of the lid and on the bottom discharge dust cover. The container features a drop door for easy access into the container and three runners for easy handling. The shape of the bottom discharge is designed to minimize residual product.

Hygienic

Plastic containers are non-porous and resistant to moisture, insects, fungi, acids, fats, solvents and odor. Our containers are inspected after every turn to make sure they meet our quality standards.

Sustainable

Plastic containers are a sustainable solution because they can be reused for years, are recycled at the end of their service life, and are then remanufactured into new containers.

Traceable

RFID, GPRS and IoT technology can be imbedded, ask for more information.

Features and specifications

Characteristics

Color	Blue, Gray, Black
Runners	3
Lid	Yes
Drop door	Yes
Material	Polypropylene (PP)
Foodgrade	Yes
Temperature range	-20° C / +50° C
Bottom Discharge	Yes

Dimensions

External	1200 x 800 x 918 mm
Internal	1130 x 724 x 718 mm
Folded (with lid)	1200 x 800 x 372 mm
Weight	67 kg
Volume	560 l

Loading capacity

Max static load (4 on 1)	5400 kg
Max dynamic load (1 on 1)	2160 kg
Load capacity	1000 kg
